INTRODUCING ARTIST: Sofia Housou

Kivotos Art Projects curated by Dr. Sozita Goudouna

Kivotos Art Projects consists of a series of five contemporary art exhibitions by 20 emerging and established Greek artists, curated by Sozita Goudouna, presented in succession during the period May-October 2013.

Becoming a part of the Aegeanale platform, the Kivotos Art Projects programme aspires to establish its role as a shelter for contemporary artistic creation in the Aegean, as well as to contribute to the re-mapping of Mykonos as a destination of cultural interest.

SOFIA HOUSOU

The first solo exhibition at Kivotos Gallery showcases the post-abstract expressionist work of artist Sofia Housou.

Housou's works operate in a dramatic background where colour becomes the vocabulary for her to express and communicate shuttle and complex messages.

These paintings subvert our art-historical notions of abstraction and abstract expressionism, while they inextricably and poetically blend reality with imagination, the mysterious with the plain, the flat with the profound.
