OVERVIEW

The study was conducted for CNN via web and telephone on the SSRS Opinion Panel, a nationally representative panel of U.S. adults ages 18 or older recruited using probability-based sampling techniques. SSRS is an independent research company. Surveys were obtained **December 1-7, 2022** with a representative sample of n=**1,208** respondents. The margin of sampling error for total respondents is +/- **3.6** at the 95% confidence level. The design effect is **1.63**. More information about SSRS can be obtained by visiting www.ssrs.com.

EMBARGOED FOR RELEASE:
Wednesday, December 14 at 12:00 p.m.

NOTE ABOUT RESULTS

Unless otherwise noted, results beginning with the August 3-6, 2017 survey and ending with the April 21-26, 2021 survey are from polls conducted by SSRS via telephone only. For more information about other trend data included in this topline, please see the "More on Methodology" section at the end of this document.

Results beginning with the March 31-April 2, 2006 survey and ending with the April 22-25, 2017 survey are from telephone surveys conducted by ORC International. Results before March 31, 2006 are from telephone surveys conducted by Gallup.

Question text noted in parentheses was rotated or randomized. Values less than 0.5 percent are indicated by an asterisk (*).

NOTE ABOUT CROSSTABS

Surveys were conducted among a representative sample of the adult population, age 18 or older, of the United States. Members of demographic groups not shown in the published crosstabs are represented in the results for each question in the poll. Crosstabs on the pages that follow only include results for subgroups with a minimum N=125 unweighted cases. Results for subgroups with fewer than N=125 unweighted cases are not displayed and instead are denoted with "**SN**" because samples of that size carry larger margins of sampling error and can be too small to be projectable with confidence to their true values in the population.

Q8. Do you think Joe Biden deserves to be re-elected, or not?

	Yes, deserves re-election	No, does not deserve re-election	No opinion
Total Respondents			
December 1-7, 2022	37%	62%	1%

MORE ON METHODOLOGY

A total of n=**1,208** adults were surveyed via web and phone on the SSRS Opinion Panel, a nationally representative panel of U.S. adults ages 18 or older recruited using probability-based sampling techniques. Surveys were conducted in English and Spanish.

Results for the full sample have a margin of sampling error of +/- 3.6 percentage points.

Among the entire sample, **34%** described themselves as Democrats, **32%** described themselves as Republicans, and **34%** described themselves as independents or members of another party.

The entire sample was weighted to reflect national Census figures for gender, race, age, education, region of country, population density, civic engagement, and voter registration, and Pew Research Center's NPORS figures for religious affiliation and frequency of internet use. The sample was also weighted for self-reported party identification. The benchmark for party identification was taken from CNN's national poll conducted by SSRS via web and phone from September 3-October 5, 2022, which implemented a full probability design via Address-Based Sampling (ABS).

Surveys were conducted among a representative sample of the adult population, age 18 or older, of the United States. Members of demographic groups not shown in the published crosstabs are represented in the results for each question in the poll. Crosstabs on the pages that follow only include results for subgroups with a minimum n=125 unweighted cases. Results for subgroups with fewer than n=125 unweighted cases are not displayed and instead are denoted with "**SN**" because samples of that size carry larger margins of sampling error and can be too small to be projectable with confidence to their true values in the population.

NOTE ON TRENDS

All included trend points were based on surveys conducted using probability-based sampling methods. Some surveys included as trend points in this document were conducted using different methodologies, or with different combinations of sponsors. Unless otherwise noted, results beginning with the August 3-6, 2017 survey and ending with the April 21-26, 2021 survey are from polls conducted by SSRS via telephone only. Here are more details on the methodology behind each CNN poll conducted by SSRS using other methods.

Address-Based Sampling	Probability Panel: Web + Phone	Probability Panel: Web only	Probability Panel: SMS only
August 3-September 7, 2021	November 1-4, 2021	March 25-26, 2019	May 12-13, 2022
January 10-February 6, 2022	December 8-12, 2021	September 21-22, 2020	
June 13-July 13, 2022	January 13-18, 2022	October 7-11, 2021	
September 3-October 5, 2022	April 28-May 1, 2022	February 23-26, 2022	
	October 26-31, 2022	May 3-5, 2022	
	December 1-7, 2022	July 22-24, 2022	

Results beginning with the March 31-April 2, 2006 survey and ending with the April 22-25, 2017 survey are from telephone surveys conducted by ORC International. Results before March 31, 2006 are from telephone surveys conducted by Gallup.

CNN/SSRS Poll -- December 01, 2022 to December 07, 2022

TABLE 007
Question Q17D
Q17D. Thinking now about Joe Biden, do you think he has had a good effect on the Democratic Party, a bad effect on the Democratic Party, or hasn't he made much difference either way?
Base: Total Democrats/Democratic-leaning independents who are registered to vote

	Total	Men	Women	White	Ppl of Color	Reg. voter
	=====	=====	=====	=====	=====	=====
Good effect	53%	53%	53%	54%	51%	53%
Bad effect	9%	9%	10%	7%	12%	9%
Hasn't made much difference	38%	38%	38%	39%	37%	38%
Don't know/Refused	0%	0%	0%	0%	0%	0%
Sampling Error (+/-)	5.7	8.7	7.7	7.7	8.5	5.7

	Total	18-34	35-49	50-64	65+	<45	45+
